Announcing DISCUS 4.0!

DISCUS 4.0 Now Exports to Forms 1 and 2

You've asked for it and DISCUS delivers. Upload Parts list in from a simple CSV file or enter the data right into DISCUS. Enter your Form 2 data in DISCUS and exports directly to the AS9102.

And don't worry about it being too new! It's the same user-friendly software (**you know and love!**) only better!

And we are offering [free DISCUS 4.0 training](#) to those who are current with their annual support and maintenance!

[See the list of enhancements!](#)

The screenshot displays the DISCUS software interface. On the left, a technical drawing of a mechanical part is shown with various dimensions and callouts. On the right, a specification document for "FUSION ARC WELDING (GTAW)" is visible, detailing scope, applicability, and definitions. At the bottom, a table lists requirements with columns for Requirement, Result, Status, and Result Comment.

Requirement	Result	Status	Result Comment	Number
1. Linear Dimension 1.75 ±0.01 - Part 01	1.75	Pass		1
2. Linear Dimension 3.00 ±0.01 - Part 01	3.00	Pass		2
3. Linear Dimension 8.00 ±0.01 - Part 01	8.00	Pass		3
4. Linear Dimension 1.00 ±0.01 - Part 01	1.00	Pass		4
5. Hole Diameter 0.625 ±0.005 - Part 01	0.625	Pass		5
6. Hole Diameter 0.625 ±0.005 - Part 01	0.625	Pass		6
7. Radius R=1.125 ±0.01 - Part 01	1.125	Pass		7
8. Linear Dimension 1.4 ±0.01 - Part 01	1.4	Pass		8
9. Linear Dimension 3.00 ±0.01 - Part 01	3.00	Pass		9
10. Hole 4. Part welding head - Part 01		Pass		10

Improved OCR and exporting of the drawings are just a few of the great improvements. If you liked DISCUS 3.5, you will **love 4.0!**

And yes, more **HOT Keys!**

If you are being tasked with doing more with less, and you need to prove your case to your boss, here are the tools to help!
