DISCUS 4.0 for a Complete FAI Solution

With OCR and Results-FAIs are More Efficient

Improved OCR complements the FAI requirements with MIN and MAX recognition. Plus, export all the ballooned drawings into one PDF file.

It's the same user-friendly software, only better! That's not luck...that's **DISCUS!**

The screenshot displays the DISCUS software interface. On the left, a technical drawing of a mechanical part is shown with various dimensions and callouts. In the center, a table lists requirements with columns for 'Requirement', 'Structure', 'Belongs To', 'Key', 'Location', 'Places', 'Class', 'Repeatable', 'Requirement Comment', 'Result', 'Status', 'Result Comment', and 'Nonconform'. On the right, a document titled 'SCOMO's Aerospace Company' is open, showing 'FUSION ARC WELDING (GTAW)' specifications. At the bottom right, a 'Requirement Image: CR 2' shows a dimension of 1.25 with a tolerance of +0.01/-0.01.

Requirement	Structure	Belongs To	Key	Location	Places	Class	Repeatable	Requirement Comment	Result	Status	Result Comment	Nonconform
1	Linear Dimension	1.25	±0.01	Part 01	Top	211052	1	Minor		OK		
2	Linear Dimension	50	±0.01	Part 01	Top	211052	1	Minor		OK		
3	Linear Dimension	1.00	±0.01	Part 01	Top	211052	1	Minor		OK		
4	Hole	2 places	Ø 6.9 ± 0.14	Part 01	Top	211052	1	Minor		OK		
5	Radius	± 11.00		Part 01	Top	211052	1	Minor		OK		
6	Linear Dimension	14	±0.01	Part 01	Top	211052	1	Minor		OK		
7	Linear Dimension	5.00	±0.01	Part 01	Top	211052	1	Minor		OK		
8	Hole	4	Fast welding heat	Part 01	Top	211052	1	Minor		OK		

Improved FAIs means customer satisfaction.
Better, faster FAIs start with DISCUS.
